REALIZING LANDSCAPE INSTALLATIONS

Based on the enormous success of LW Sardinia 2011/12/13/14 in reconsidering exceptional Sardinian landscapes, the non profit LANDWORKS Cultural Association in collaboration with the Regional Natural Park of Porto Conte, the Municipality of Sassari, the Environmental Geomineral Park of Sardinia and other partners, will design and realize a number of in-situ projects to underline the significance of the landscape, the natural and cultural UNESCO heritage of the ex silver mines complex called ARGENTIERA (Sassari). Together, with local actors and under the guidance of internationally renowned professional guests, the workshop participants will build temporary and permanent installations to open new perspectives and opportunities for future developments.

CULTURA

Nel suo cuore ed in superficie, dall'oscurità alla luce, il Sulcis Iglesiente custodisce straordinari tesori, tra cui il patrimonio minerario, tutelato dall'UNESCO.

In superficie, siti e reperti archeologici Nuragici e Fenici, Romani e Bizantini, tra cui le uniche catacombe di tutta la Sardegna. La forza della fede impressa nei preziosi gioielli del romanico ed in un sorprendente gotico di influenza catalana fino alle volumetrie pure ed essenziali del razionalismo, una tra le stagioni più innovative ed inquisite dell'architettura italiana.

Nel suo cuore, e nelle sue grotte, il Sulcis Iglesiente ha inciso una vera e propria enciclopedia della Terra, aperta a tutti gli appassionati di speleologia, archeologia e avventura.

Disabled access in Sardinia
Feb 07, 2016, 12:40 PM
Hi,
My wife is in a wheelchair and I would like to know how easy it is to get around in the main towns in Sardinia. I would also like to know if there are any hotels with wheelchair access instead of the bathroom's construction.
I would appreciate any advice on the subject.
Thanks.
RENZO E LUCIA
Our holiday was enjoyable but maybe disable access is not good at all in Sardinia and also there is a lack of information about this topic!

The window displays a grid of approximately 30 real estate listings. Each listing includes a small photograph of a property, a brief description, and contact information. A hand is pointing to a listing in the second row, second column. The listings are arranged in a grid that is roughly 5 columns wide and 6 rows high. The text on the listings is too small to read, but they appear to be organized by property type or location. A large, semi-transparent watermark or logo is visible in the center of the grid.

Mediazione linguistica e culturale

Il ruolo del mediatore è quello di facilitatore tra i migranti e i servizi previsti; partecipa nell'attivazione di modalità di prevenzione e di gestione dei conflitti nati da incomprensioni comunicative e da mancanza di informazioni; è inoltre uno strumento importante nelle strategie di lavoro che hanno come scopo l'integrazione dei nuovi cittadini.

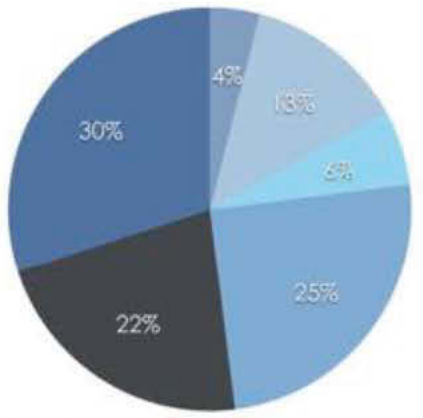

Le funzioni di base del mediatore sono:

- facilitazione della comunicazione attraverso la traduzione e l'interpretariato linguistico e la decodifica del linguaggio verbale e non verbale e degli impliciti culturali;
- informazione degli immigrati sui loro diritti e doveri;
- informazione degli operatori italiani sui costumi, sui codici delle culture altre;
- orientamento, consulenza, assistenza tecnica, accompagnamento degli immigrati;
- supporto alla progettazione di interventi attraverso l'analisi dei nuovi bisogni;
- accompagnamento e facilitazione nel percorso scolastico e formativo;
- accompagnamento e facilitazione all'interno delle strutture sanitarie.

In relazione alla formazione del mediatore, si dovrebbe arrivare alla definizione di un modello unico di percorso (curriculum, numero di ore, definizione di un modello di base ed eventuali moduli di specializzazione nella scuola, sanità, tribunali e altro, modalità di stage).

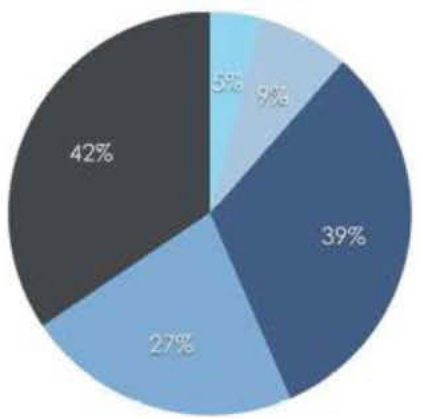

Infine, il mediatore deve avere una formazione continua che gli permette di relativizzare le

WILLEM HENDRIKS

ABOUT ME

Together with my wife I currently live in Maastricht, the Netherlands. We have two children, a girl of 5 and a boy of 8 years old. I'm a very sportive person and I try to pass this on to my family. That's why I like a dynamic vacation with trekking, biking and horse riding. We often take our camper to discover a new place.

Zona ZTL is a very small sector with really easy pitches for beginners and kids. It's really close to Punta Pilocca.

Approach:

From Iglesias take the road SS 126 to Fluminimaggiore. At the km 54.100 follow a small road on the right towards the Antas' Temple. You drive for about 1.5 km to get to the archaeological site of the temple of Antas.

From here, take the dirt road. When you arrive at a T-junction turn left towards Arenas. Going straight, after some ups and downs, you see the crag of Punta Pilocca on the left, locate a sign indicating Punta Pilocca hanging from a tree. Take the trail and go to the first crag you see on the right (do not go to Punta Pilocca), a few minutes from the car.
